West Coast Blues

As I discussed in the first book, the key of C is one of the most versatile keys. Not only can you play folk, country, ragtime, pop, and blues, it is also one of my favorite keys. Our first song is a famous Blind Blake song called "West Coast Blues". Notice the use of the A chord in measures 3 and 4. This chord is a drag to make, but it is well worth the effort because it pops up all over the place in blues/rag playing. The G lick in measures 7 and 8 is also very common. Good luck, and make it swing.
